

# Startup 4Climate

One of Europe's biggest innovation challenges for climate action in the energy sector.

## The Challenge

Do you have a business idea that promotes the switch to energy systems that are smarter, more efficient and reduce our negative impact on planet earth? Join now and help us speed up the energy transition.

## The Vote

All submissions that follow the contests regulations will be publicly announced on We Don't Have Time, a social network that enables anyone to cast a vote on their favorite innovation.

## The Pitch

The best submissions will go on to pitch their ideas to a jury of experts from the fields of entrepreneurship, clean energy, green technology and energy science.

## The Prize

The winners will share a total sum of **2 000 000 SEK** and consulting sessions with the jury to help catalyze their ideas and accelerate the energy transition.
